

**FOR JOBS THAT GO SMOOTHLY
FROM START TO FINISH**

Sedona Acid Stain Concentrate will not chip, crack or peel, has beautiful penetrating colors, reduces surface glare, and is good for interior or exterior use.

SEDONA

ACID STAIN CONCENTRATE

Malay Tan

Black

English Red

Green Lawn

Fern

Cola

Aqua Blue

Golden Wheat

Vintage Umber

Walnut

Final color can not be guaranteed and this color chart is a representation only. The colors produced will rely heavily on skill, practice, and experimentation. Each concrete slab will react differently depending upon application methods and age of concrete. Before applying stain, it is strongly recommended the stain be tested in an inconspicuous area.
